

HYDRO-LEK

REMOTE HANDLING SPECIALISTS

HLK-HD6W Manipulator:

The HLK-HD6R Manipulator arm is based on the HD5, but with an HLK-22100 Rotary Actuator fitted at the shoulder joint, which allows the arm to rotate through 180°. The universal mount plate allows the arm to be configured for either port & starboard mounting. This also allows the arm to be rotated into 4 different starting positions

Specification:

Dimensions	Length of arm (from slew pivot point)	1120 mm
	Length of slew plate	280 mm
	Height	530 mm
	Width	145 mm
Capacities	Rotate	360° continuous
	Torque at 140 bar	38Nm
	Lift capacity at full reach at 140 bar	30Kg
	Max working pressure	210 Bar
Weight	Weight in air	29 Kg
	Weight in water	21 Kg
Construction	316 SS	
	HE 30 Hard anodised aluminium	
	High density polyethylene	
Ports	1/8 NPT / 7/16 SAE
