REMOTE HANDLING SPECIALISTS

HLK-73000 Valve Pack:

The HLK-73000-7 7-Way Valve Pack incorporates 7 bi-directional solenoid valves, with pilot checks and free flow - adjustable restrict return banjo fittings on each output. Each function is controlled via HLK solenoid coils, which can be wound to suit many voltage supplies. A full back EMF diode board is also included. The output connection ports are horizontal to the valve pack, which enables the units to be mounted in very confined spaces, especially useful on small ROV's or tooling packages. Two additional ports allow a second HLK valve pack to be connected, as a slave, where more than 7 bi-directional valves are required

Specification:

Dimensions	Housing length (Inc Fittings)	324mm (370 mm)
	Housing width (Inc Fittings)	75mm (149 mm)
	Housing height	192 mm
Weight	Weight in air (without oil)	12.0 Kg
	Weight in water (without oil)	9.0Kg
Functions	7 x Bi-directional solenoid valves	
Connector	16 way Micro series male flying lead	
Coils	Standard 24V DC (other voltages available)	
	36 Watts nominal power	
Hydraulics	Max working pressure	210 bar
	Porting	1/8" NPT
Construction	Hard black anodised aluminium	
	316 Stainless Steel Fittings	

Specification

Dimensions:

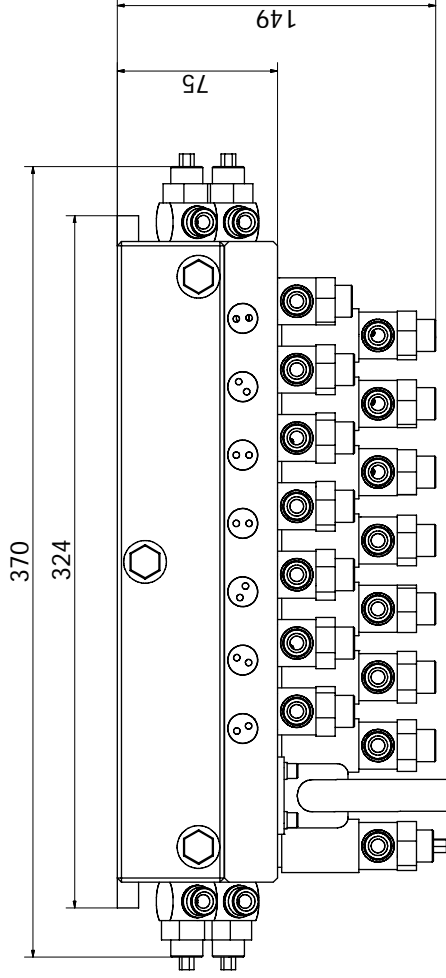

Length 324mm
 Length (inc fittings) 370mm
 Height 200mm
 Width 75mm
 Width (inc fittings) 149mm
 In Air 12Kg
 In water 9Kg

Weight:

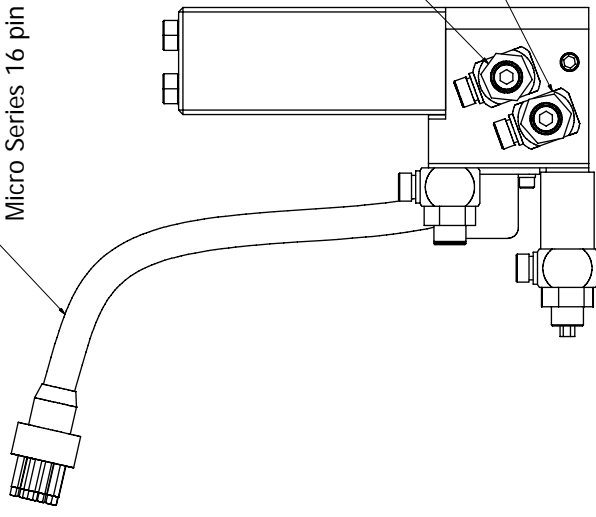

7 x Bi-directional Solenoid Valves
 Pilot Check with Free flow - adjustable restrict return on each output

Functions:

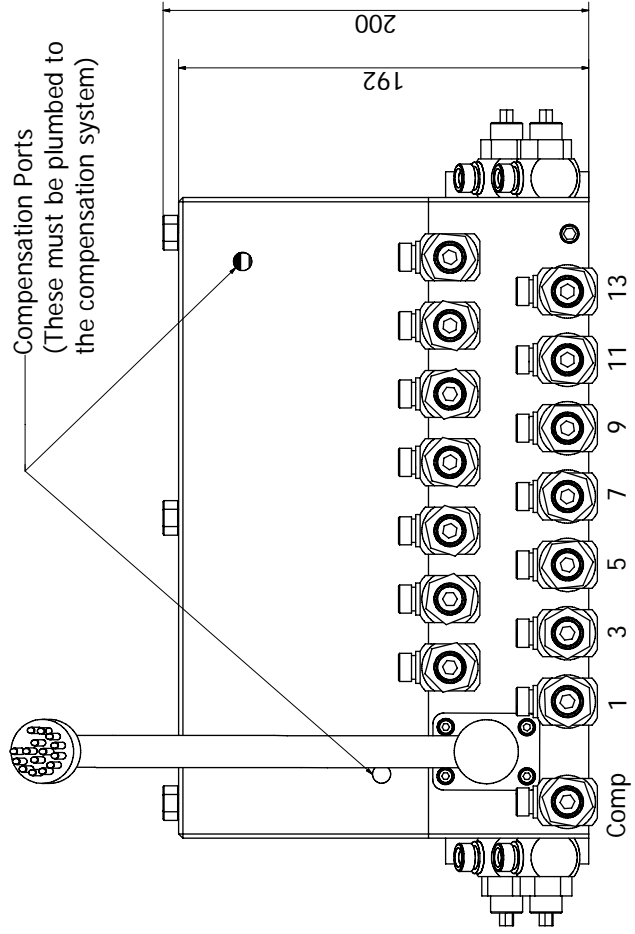

Porting 1/4" BSP
 Max Working Pressure 210BAR
 Construction Hard Black Anodised Aluminium
 316 Stainless Steel fittings

2 Mtr Cable with Subconn®
 Micro Series 16 pin Male

Compensation Ports
 (These must be plumbed to the compensation system)
