HLK-73200-7 7-Way Proportional Valve Pack:

The HLK-73200-7 7-Way Valve Pack incorporates 7 bi-directional, proportional solenoid valves, with pilot checks and banjo fittings on each output. A clear window in the cover of the valve pack has a group of LED's to show which valves are being used. The output connection ports are horizontal to the valve pack, which enables the units to be mounted in very confined spaces, especially useful on small ROV's or tooling packages. Two additional ports allow a second HLK valve pack to be connected, as a slave, where more than 7 valves are required

Specification:

Dimensions	Housing length (Inc Fittings)	349mm (400 mm)
	Housing width (Inc Fittings)	90mm (149 mm)
	Housing height	192 mm
Weight	Weight in air (without oil)	13.0 Kg
	Weight in water (without oil)	10.0Kg
Functions	7 x Bi-directional Proportional solenoid valves	
Connector	66 way male flying lead	
Coils	Standard 24V DC, 24 Watts nominal power	
Hydraulics	Max working pressure 210 bar	
Porting	1/8" BSP Tank, 1/4" BSP Pressure & Outputs, 1/8" NPT Compensation	
Construction	Hard black anodised aluminium 316 Stainless Steel Fittings	

Specification & Dimensions subject to change without prior notification
