

HYDRO-LEK

REMOTE HANDLING SPECIALISTS

HLK-SRT-80300

The HLK-SRT-80300 Size Reduction Tool is designed to pick up manageable debris, (up to 80Kg Max Weight), and deposit it into collection receptacles or baskets. The combined arm and cutter are mounted such that the arm can transfer cables or pipe to the cutter jaws to enable it to be cut into disposable sized pieces. The cutter can also pick up pipe or cable directly when a long piece needs to be reduced in length before being placed in the collection receptacle or basket. The system has been designed for fitting to an overhead gantry or robotic head with connections for hydraulic and electrical control signals

SPECIFICATION:

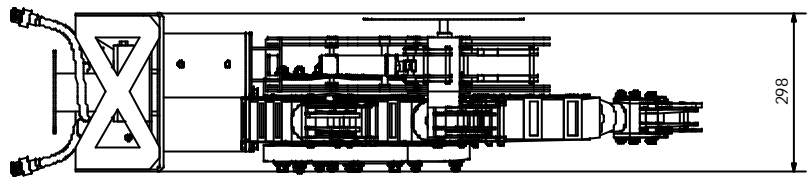

COMPONENTS:

- HLK-RHD5 5-FUNCTION MANIPULATOR ARM
- HLK-33600 DISK CUTTER
- 2 x HLK-72100 VALVE PACKS

CAPACITIES:

- MAXIMUM CUTTING DIAMETER 0-4 INCH
- MAXIMUM LIFT 80 Kg
- MAX WORKING PRESSURE 210 BAR
- WEIGHT IN AIR 100 Kg

PLEASE SEE INDIVIDUAL DATA SHEETS FOR FURTHER INFORMATION
